# WIM in the community

In 2023, WIM entered into a three-year gold sponsorship agreement with Rotary District 9780 for the Defying the Drift program, an initiative that has been active since 2010. This program is focused on encouraging senior secondary school students to explore career options in rural Australia, with a particular emphasis on the agricultural and resources sector.

The 2023 program took place at Longerenong College, highlighting the College's dedication to fostering young professionals in rural and regional vocations.
